

BENETECH MaxClean™

BEP1 Primary Belt Cleaner

The Benetech MaxClean product line is designed to maximize user benefits and extend the life of your belt conveyors.

Key Features & Benefits:

1. Compact design

Benefits:

- Mounts easily in tight chute applications
- Blade can be positioned on the head pulley in a range of locations

2. Advanced blade technology – The AdvantEdge™ Blade

Benefits:

- Unique “Wave” profile creates a varying attack angle reducing blade edge bull-nosing
- Our proprietary urethane formulation and hardness provides the cleaning power of a metal blade
- Uses more of the blade’s urethane for longer wear from each blade
- Blade width is belt width minus 2” for full belt coverage. (minus 4” and 6” available)
- Blades easily retro-fit to other cleaner brands

3. Fewer parts

Benefits:

- Quick and easy to install
- Modular design for simplicity

4. Self-contained torsion tensioner

Benefits:

- Easy to set up at installation
- Simple to retension
- Self-adjusting to maintain consistent cleaning as the blade wears

5. Minimal maintenance

Benefits:

- One-pin blade change-out
- Quick ratchet blade tension adjustment

6. Optimized for vulcanized belts in material handling applications

Benefits:

- Focused on high performance in coal-fired power plants, steel mills, aggregate, ports, cement plants, saw mills, pulp mills and mining
- Years of application knowledge and experience from the Benetech team

Quick, Safe Blade Changes

1. Remove one blade pin
2. Pull out the worn blade
3. Slide in the new blade
4. Replace the blade pin
